

I want to comment that it would be an outrage for businesses that have my phone number or any other personal information for that matter, to be used in a way I am completely opposed to. (Contacting me for what ever reason they want via phone.)

It is extremely irritating in of it's self to get unwanted telephone calls. But to receive them on a ulitly (phone) I PAY FOR. This is like buying a cheeseburger, and someone I don't know taking a bite simply because they want to and have means over my control. They simply have no right!

It is MY home, MY phone, MY phone bill, paid for by MY income, earned by ME  
.....  
SO WHERE ARE MY RIGHTS REGARDING IT?
